I visited a [used BMW dealer London](#) today, to see if they had any VAT qualifying second hand BMW cars in stock. They need to fall under this category for effective tax purposes, as I want to finance them through my business. I want two BMW 3 Series diesels for my two sales representatives. They did not have anything suitable but I want this make and model to maintain a professional corporate appearance. After all, my employees are ambassadors of my brand. I may drive to Big Motoring World Kent at the weekend to see if they can help me.
